

NOTES

1961- Morris Bardoch and Dale Krupchauer went to Chatsworth to see Mr. Schiess, the township tax assessor, in regard to some private parcels of land.

He informed us that the land from #532 south to Apple Pie Hill was divided into small parcels, and that the owners had not stepped near the land in 30 years. He also stated that the owners would be almost untraceable without extensive research. He assured us that no one would know or care if we blazed the trail through there.

The half mile trail from #532 north, to the gravel road is owned by Mr. Sloan of Chatsworth; the third gray house before the railroad, on the right, on #563 going south.

We stopped there but Mr. Sloan was not in. We spoke to Mrs. Sloan, who was most pleasant and agreeable. She told us she was sure it would be alright with her husband and she would tell him. She told us to just go ahead and put in the blazes.

1978- Added 2 1/2 mile extension at northern end, to Ong's Hat.

1978- Added 9 mile extension at southern end, to #563, Evan's Bridge.

1987- Added 9 mile extension to southern end, to Stage Road.
